PROFILE

I am a motivated WordPress Developer with strong technical skills, eager to contribute and grow in a dynamic IT role where I can apply my expertise and dedication.

WORK EXPERIENCE

Insignia Technolabs

Sep , 2022 - Present

3 years 7 months of experience
(including 6-month training period)

- Built and customized WordPress sites, themes, and plugins based on designs from PSD, XD, and Figma. Delivered responsive websites tailored to client needs.
- Worked with WordPress core features, custom post types, taxonomies, hooks, and filters to add functionality and enhance performance.
- Created flexible layouts using Elementor and WPBakery page builders. Developed custom Elementor widgets for easier content updates.
- Developed WooCommerce sites with custom payment options like PayPal and Stripe, and customized shipping methods and rules, including dynamic rates, conditional shipping, and third-party shipping API integrations. Set up CRM systems for efficient product and order management.
- Applied speed optimization techniques to improve load times and performance. Ensured cross-browser compatibility and accessibility standards.
- Collaborated with clients to understand goals, set timelines, and provide regular updates. Ensured clear communication and timely delivery.
- Streamlined product uploads and enhanced site performance by troubleshooting and resolving technical issues.
- Integrated essential plugins, including contact forms, SEO tools, and security plugins like Wordfence and iThemes Security. Managed live site deployments and provided ongoing support to maintain security and smooth operation.
